PREFACE

“ Though a matter of varying sensitivities and urgency, procreation is a dream of everybody. According to studies, the need for parenthood is greatest in India but awareness of fertility problems is lowest. In societies like India's, parenthood is a matter of utmost importance and urgency, and inability to conceive leads to stigmatization, ostracism & social distress, the burden of which falls disproportionately on women even when the cause lurks in their male partners. ”

“ We at **GYNO360**, A Infertility and Gynae Division of **Curo360 Lifesciences Pvt. Ltd.** work tirelessly to offer the latest molecules of International quality for the treatment of Reproductive Disorders like Infertility (Female & Male) and also focus on the health of Women during the Pregnancy period. **“A hug from children is one of the best and most precious feelings in the world”** **“ENJOY YOUR PARENTHOOD”** ”

A 360° Care towards Health
